

Introducing Doane College

The Leadership College

Doane's beautiful campus in Crete and distinctive location in Lincoln provide a special environment for creative and innovative learning, offering students the opportunity to develop their talents and skills to the fullest.

This catalog provides a description of the Crete campus — its programs, services, and academic and financial aid policies. However, the pages within cannot capture the spirit and vitality of Doane's approach to fostering a successful future for students. Our emphasis on leadership illustrates that:

- Doane, as a comprehensive college, produces leaders who have received a broad, liberal education linked closely to career and professional preparation.
- Doane provides graduates with appropriate academic programs and skills to prepare them for satisfying and profitable careers.
- Doane's distinctive Zenon C.R. Hansen Leadership Program promotes self-confidence and readies students for a future of independence.
- Doane's international and multicultural presence enhances educational opportunities.
- Doane's strategic locations in Nebraska's metro region allow learning to extend off-campus through internships, work, and a variety of impressive public events.
- Doane's innovative approach to both traditional and nontraditional undergraduate and graduate education makes Doane a leader among colleges of the Midwest.

History of Doane

For 130 years, Doane College has occupied a distinguished place among the liberal arts colleges of the Midwest.

The history of Doane College dates from 1857, when the General Association of Congregational Churches, in its first annual meeting at Fremont, Nebraska, resolved to lay the foundations of a literary institution of a high order in Nebraska. Fourteen years later, and after several unsuccessful attempts to establish Congregational schools across the state, an academy was founded in Crete on May 22, 1871.

The efforts of the local Congregational pastor and Thomas Doane, chief civil engineer for the Burlington and Missouri River Railroad, were instrumental in advancing the idea of the Academy. On July 11, 1872, Doane College preempted the old Crete Academy. The college was officially incorporated at that time as a non-profit institution governed by an independent, self-perpetuating board of trustees. It has received continuous accreditation from the North Central Association of Colleges and Schools since 1913. The college is authorized to conduct all affairs considered essential to the liberal arts enterprise wherever it is carried on, including teaching, research, academic study, and granting degrees.

Doane has maintained its relationship with the church, now called the United Church of Christ (UCC). Doane serves as the representative institution for the Nebraska, Rocky Mountain, Kansas-Oklahoma and South Dakota conferences of the UCC. Doane, although founded by Protestants, is open to students of every Christian denomination and adherents of other religions, as well as those who profess no formal religion.

Education for a Lifetime

Throughout Doane's 130-year history, the college has provided students with dedicated faculty and quality programs. The highest priority for Doane College faculty is to continually improve the teaching and learning process. Faculty also are active with scholarly research and publication, community service, and campus life.

The faculty has been aided in this educational process by a strong administrative staff, led by a succession of enlightened presidents. Doane's first president, David Brainerd Perry, served from the official founding of the college in 1872 until 1912. He was followed by:

Arthur B. Fairchild	1912-1914 (acting)	Bryant Drake	1942-1947
William O. Allen	1914-1918	David L. Crawford	1948-1954
John N. Bennett	1919-1925	Donald M. Typer	1954-1966
Edwin B. Dean	1925-1936	Philip R. Heckman	1967-1987
Bryan S. Stoffer	1937-1942	Frederic D. Brown	1987-

The Purpose of Doane

The purpose of Doane College is to educate students to serve and to lead in Nebraska, the nation, and the world.

Mission Statement

Doane College, a comprehensive college in the liberal arts tradition, offers an academic curriculum to stimulate inquiry, enhance knowledge, and promote examination and development of values and perspectives through majors and the liberal arts. The college prepares students by offering academic and cocurricular opportunities to develop abilities and skills needed in and out of the workplace. Doane also provides opportunities for students, faculty and staff to develop and practice leadership skills.

Doane College is a private, independent, coeducational college serving both traditional and nontraditional students. The college continues its historical relationship with the United Church of Christ and its tradition of promoting free inquiry. The college offers instruction in the liberal arts and related professional and pre-professional areas leading to the bachelor of arts, bachelor of science, and master's degrees. At both the undergraduate and graduate levels, Doane is committed to student-centered education characterized by close student-teacher relationships. The college serves students through residential campus programs, off-campus programs, and graduate programs. Doane seeks to attract students, faculty and staff with diverse geographic, racial, ethnic, religious, economic and cultural backgrounds.

As the college pursues its mission, students will demonstrate the ability:

- I. To read, listen, write and speak effectively.
- II. To think critically.
- III. To integrate theories with practice.
- IV. To collect and process information by selecting methods to improve understanding and solve problems.
- V. To use problem-solving skills effectively.
- VI. To work with others.
- VII. To act ethically and to lead responsibly.

Accreditation Statement

Doane College is accredited by The Higher Learning Commission and is a member of the North Central Association (NCA), 30 N. LaSalle Street, Suite 2400, Chicago, IL, 60602-2504. NCA may be reached by phone at 800-621-7440 or by e-mail via the Internet at www.ncacihe.org. In addition, the Teacher Education unit at Doane College is accredited by the National Council for Accreditation of Teacher Education (NCATE), 2010 Massachusetts Ave., N.W., Suite 500, Washington, DC 20036; 202/466-7496. This accreditation covers

initial teacher preparation programs and advanced educator preparation programs. Doane is also accredited by the Nebraska Department of Education, 301 Centennial Mall South, P.O. Box 94987, Lincoln, NE, 68509-4987; 402/471-2295; the Association of Collegiate Business Schools and Programs, 7007 College Blvd., Suite 420, Overland Park, KS 66211; 913/339-9356; and by other standardizing agencies. Documentation of Accreditation may be viewed upon request in the Doane College President's Office.

Doane College Memberships

College Entrance Examination Board
Council for the Advancement and Support of Education
Council of Independent Colleges
American Association of Colleges for Teacher Education
Association of Nebraska Interterm Colleges
Association of Independent Colleges and Universities of Nebraska
National Association of Independent Colleges and Universities
National Association of Intercollegiate Athletics
Great Plains Athletic Conference
Nebraska Association of Colleges and Universities
Nebraska Independent College Foundation
Nebraska Independent College Library Consortium

Assessment Statement

Doane values the participation of undergraduate and graduate students in its institution-wide program to assess student achievement. This program is part of the institution's responsibility to monitor student outcomes and assure the continuing quality of a Doane degree. Multiple strategies are used to gather information about student achievement throughout the college experience. Information collected as a part of the assessment program is used for assessment purposes only and is not used to evaluate individual performance. The college protects the confidentiality of data collected.

Fiscal Responsibility

The college provides a strong financial base for education through endowment growth, by annual fiscal integrity, through annual gift income, by a competitive comprehensive fee, and by a supportive scholarship program.

The Academic Calendar

Doane's 4-1-4 academic year is arranged into a fall term of four months ending before Christmas recess, a three-week interterm in January, and a spring term of four months ending in May. Students register for one three-credit course during an interterm and normally take 16-17 semester credits during each of the regular terms.

The January interterm between the fall and spring terms provides special opportunities for students to develop their capabilities for personal growth and adaptability through learning that is designed to be in-depth and/or integrative. These courses may be integrative in breadth by cutting across traditional lines or divisions of knowledge to focus on significant topics or works, or in-depth by pursuing specialized topics within a given discipline. They may be experiential in the sense of involving students directly in the application of theory to practice, in settings not normally available through regular term courses.

Several interterm courses provide off-campus opportunities, for which junior and senior students on the Crete campus may receive up to \$700 in scholarship money. In contrast with the regular terms, only one course is taken by each student during interterm, and normally an interterm experience may not be repeated.

In addition to the courses described above, there are a limited number of regular catalog courses offered during the interterm for students who wish to complete a Doane Plan course or a course in their major. Interterm offerings are published each year in a supplement to the college catalog.

A limited number of courses are offered during the summer session, which is arranged as follows: a three-week session, an eight-week session, and two five-week sessions. Summer school offerings are published in April of each year.

Academic Divisions

Course offerings are grouped into the following five academic divisions:

Business - Accounting, Business, Economics

Education - Early Childhood, Elementary Education, Military Science, Physical Education, Special Education

Fine Arts and Humanities - Art, English, English as a Second Language, Fine Arts, French, German, Humanities, Mass Communica-

tion, Music, Organizational Communication, Philosophy, Religious Studies, Russian, Spanish, Speech Communication, Theatre

Science, Mathematics, and Information Science and Technology - Astronomy, Biology, Chemistry, Computer Science, Environmental Studies, Geography, Geology, Information Systems, Mathematics, Natural Science, Physical Science, Physics

Social Science - Anthropology, History, International Studies, Political Science, Psychology, Public Administration, Sociology, Social Science.

Campus Buildings and Scenic Locations

Doane College's first students, in the late 1800s, studied in one primary building, Merrill Hall (destroyed by fire in 1969). Through years of careful stewardship by faculty, staff and students, Doane now has one of the most scenic campuses in the Midwest. Currently, Doane maintains 22 primary buildings for academic, residential and cocurricular activities.

Bauer House is the official home of the Doane College president and was donated by Dr. John Bauer '04. Built in 1950, the home was dedicated in 1965. The three-story home is located on Boswell Avenue, near the south entrance to campus.

Boswell Observatory, built in 1883, was named for Charles Boswell of Connecticut, whose stepson taught at Doane. He was also a close friend of Doane's first president, David Brainerd Perry. He donated \$5,000 for the building and astronomy equipment, which included an eight-inch equatorial telescope and a meridian transit used by college founder and civil railroad engineer Thomas Doane. The observatory was supposedly the first weather service headquarters in Nebraska. It has been altered and added to several times, including following a major fire in 1930. The observatory now serves as a mini-museum for historical equipment, as well as for skyviewing with the restored original telescope. It also houses the Doane Family Association archives.

Brandt Memorial Bridge, erected in 1930, spans Miller Pond. The bridge was designed by college treasurer A.T. Cassel. It was named for Herman F. Brandt, who joined the Doane faculty in 1927 and donated funds for the bridge.

Burrage Hall (now known as one of the "quads") was completed in 1966 as Georgian Hall. In 1978, the hall was renamed for Dwight

G. Burrage, instructor in Greek and Latin and registrar from 1906-44.

Butler Gymnasium was erected in 1936 and named in honor of U.S. Senator Hugh Butler, long-time member and chairman of the Board of Trustees from 1917-54. An addition was built onto the gymnasium in 1944 to house a swimming pool, and in 1955, classrooms were added to the west side of the building. Butler Gymnasium was recently renovated and includes exercise equipment.

Cassel Open Air Theatre was created in 1936 by Doane alumnus and Treasurer A.T. Cassel. This outdoor theatre is the site of Commencement exercises each year. Cassel, who graduated in 1894, was responsible for campus landscaping for many years.

The **Communications Center** was completed in 1970. This building houses faculty offices, classrooms, computer labs, the library, and art gallery. **Perkins Library** is in the southern portion of the lower level, and was made possible through gifts from the Kitty Perkins Charitable Trust and the estate of Lincoln attorney T.F.A. Williams. The Perkins family was originally from Hastings, and several members have attended Doane. **Rall Art Gallery** is located in Perkins Library, and was created in 1986. The gallery is named for Reinhold '33 and Lillian Rall, and Leonard '35 and Dorothy '38 Rall, who provided funds for the project.

Dean Memorial Pergola was built in 1930 with funds from 1880 alumna Carrie Dean in honor of her parents. The pergola is of Greek design and is situated over a natural spring. Numerous Dean family members attended the college, and Carrie's brother, Edwin, served as Doane's president from 1925-36.

Doane Lake was created in 1931. In 1944, the spillway and water level were raised, allowing the lake to spread out. The dam was again raised in 1970 after completion of nearby Sheldon Hall. The lake has been home to pairs of swans for many years, and was renovated in spring 2000.

Fairchild Apartment Building, completed in 1956, was named for Arthur B. Fairchild, long-time treasurer (1886-1919) and acting president of the college from 1912-14. The building currently houses students.

Fiske Lodge was erected in 1910 as the campus infirmary. Charlotte Fiske of Boston donated \$1,300 toward the building, which was designed by alumni architects George and Arthur Dean of Chicago. The building, which through the years housed Tiger Inn, the art department, and faculty offices, is currently used as a classroom.

Frees Hall was completed in 1931 as a women's residence, and was designed by Dean and Dean, Architects. The building matches Smith Hall in design and was built to accommodate 185 students. A 450-seat dining hall was included in the basement, where students ate their meals until the campus center was built. The hall is named for Mr. and Mrs. Benjamin Frees for their "generous interest in Christian education in Nebraska." Frees is now a coed residence.

Fuhrer Field House, constructed in 1969, was described as the "premier facility of its kind in the Midwest." The building encloses 55,000 square feet of space for men and women's athletics. Renovations have been made throughout the years, including additional locker rooms and the Jim Dutcher Fitness Center.

Gaylord Hall was built in 1884 as Ladies Hall. The building was renamed in 1890 for the Rev. Reuben Gaylord, a pioneer home missionary and Christian educator. One wing of the building was renovated into apartments in 1931. The Midwest Institute of International Studies uses a portion of the building, which also houses classrooms and faculty offices. Production studios for television, radio, and the student newspaper are located in the lower level. Gaylord is one of three Doane buildings listed in the National Register of Historic Places.

Goodall Arts and Science Building was the first air-conditioned building on campus, and was completed in 1960. Clarice Goodall '14 of Ogallala donated funds in honor of her late husband, Robert Goodall. The building has housed administrative offices and classrooms for various departments. Goodall was most recently home to the natural sciences.

Gregory Grove is a landscape feature located south of Frees Hall. In 1932, George Gregory, class of 1882 and a member of the board of trustees from 1912-33, planted 100 pin oak trees. He is credited with bringing pin oaks to this area. The grove is now part of the college's nursery and arboretum.

Hansen Leadership Hall is the college's newest residence hall, and was completed in summer 2000. This 172-bed residence hall is located east of Sheldon Hall. The building is named for the late Zenon C.R. Hansen, former CEO of Mack Trucks, and was funded in part by The Zenon Hansen Foundation.

Lauritsen Track is named for the late Walter Lauritsen '30, an outstanding former athlete in basketball, football and track and field. As chairman of the board of trustees, he did much to further the academic and financial advancement of the college.

Lee Memorial Chapel/Whitcomb Conservatory was built in 1906-07 in the prairie school style. The building, which originally

housed a chapel and the music department, was named for Mr. and Mrs. George F. Lee of Otoe County, and Mr. and Mrs. Henry Whitcomb of Worchester, Mass. The Conservatory, though not presently used for classes, is listed in the National Register of Historic Places.

The **Lied Science and Mathematics Building** was completed in 1999, and was funded by a \$3 million gift from the Lied Foundation of Las Vegas. The \$10.2 million, 60,000 square-foot building houses the science, mathematics, and information science and technology departments. The Lied building, situated east of the Communications Center, is connected to campus by a bridge dedicated to the Crete area.

Martin Maintenance Building was built in 1991 and houses the maintenance department and storage areas. Funding was provided by Alfred Martin, a member of the board of trustees, and the Martin Foundation.

Memorial Stadium was officially dedicated Nov. 11, 1948, as the Doane-Crete Memorial Stadium, honoring veterans of both world wars. Earlier that year, the class of 1948 donated a bronze plaque in memory of those veterans to be placed in the stadium. Simon Field and Lauritsen Track are features of the stadium.

Miller Pond was named in memory of Florence Hazen Miller of Crete, who designed the Nebraska flag and also originated the idea of the living Christmas tree. In 1962, she provided funds for the renovation of this biology/"bug" pond, a natural campus feature. In 1989, the pond was dredged and a retaining wall was constructed. In 1990, a fountain was installed in the center.

Osterhout Lane was constructed in 2001-02, and connects the eastern part of campus to Iris Avenue, creating a new entrance for the college. The lane is named for Senior Vice President David Osterhout, a 1937 Doane graduate and a long-time college employee, and his family. Featured is Navy Memorial Plaza, dedicated to the Navy V5/V12 trainees who came to Doane during World War II for officer training. More than 700 men trained at Doane during this time.

Padour Walker Administration Building was dedicated in 1972 as a replacement for Merrill Hall, which was destroyed by fire in 1969. Situated just west of the Merrill site, the building houses administrative offices, a conference room, and Noyce Chapel. The chapel is located in the lower level, and was dedicated in the spring of 1975 in memory of Ralph B. Noyce '15 by his family. Funding for the building was provided by Edson O. Walker in honor of his wife, Ida

Padour '15. An interior renovation in 1999 was funded by board member Alfred Martin and the Martin Foundation.

Perry Campus Center is named for Doane's first president, David Brainerd Perry, who served the college from 1872-1912. The Rev. Perry came to Nebraska as a missionary/circuit rider and stayed to establish a college on the treeless prairie. The building opened in January of 1963 and included recreation areas, a lounge, and "Tiger Inn" snack bar. In 1970, a two-story addition was built onto the southern façade of the building. The building was again enlarged in 1995.

Poets Grove is an area south of Lee Memorial Chapel/Whitcomb Conservatory in which trees were planted by students to honor poets. On Arbor Day 1884, Doane Trustee Samuel Andrews stood in one spot and tossed pebbles across the campus green. Students then planted trees at the landing site of each stone.

Porter Memorial Bridge was built in 1931 to span the small stream between Gaylord and Frees Halls. Constructed in the same design as Brandt Memorial Bridge, this bridge honors Kezzie Porter Brande '05 who, according to the dedication plaque, "Loved the Doane Campus."

Sally Smith Fountain was constructed in memory of Sally J. Smith '82, who was killed in a 1981 automobile/bicycle accident. The fountain is located just south of Cassel Open Air Theatre. The waterfall, which cascades from the fountain, flows into nearby Doane Lake.

Sheldon Hall, located east of Frees Hall, opened in January 1970 as a women's residence hall. The three-story building remained nameless until 1978, when it was dedicated as Sheldon Hall after Margaret Thompson Sheldon, class of 1886, Doane's first dean of women and professor of English. She served the college for 21 years.

Simon Field, in Memorial Stadium, was constructed in 1929 following a generous gift from G. Eli Simon, a Nebraska attorney and father of a graduating senior. The field, which features FieldTurf, is used by the college and the community for numerous football and soccer games throughout the year.

Smith Hall (formerly Men's Hall) was renamed in 1977 to honor Charles C. Smith, class of 1887, a former trustee and benefactor of the college. In 1929, Smith contributed a substantial, then-anonymous gift to assure construction of Men's Hall. The renaming of the building provided public recognition of his earlier contribution.

Taylor House, 1119 East 4th Street, was purchased by the college in 1976 with the help of a generous gift from the Kruse family, former occupants of the house. This two-story frame house was the original

home of Doane's former Academic Dean J.E. "Josh" Taylor. It now serves as student housing.

Tiger Inn was the name given to the snack shop located at the southeast corner of 13th Street and Forest Avenue in the 1940s and 1950s. The name stuck when Tiger Inn moved to campus in the 1950s. Located for a time in Fiske Lodge, it was then moved to Perry Campus Center in 1964. After closing for several years, the Tiger Inn was reopened and given a new look in 1995, offering an alternative area for meals.

Whitin Art Building was built in 1894 as the campus library. Named for Edward Whitin of Whitinsville, Mass., who generously provided funds toward the construction, the building is vernacular Renaissance Revival in style. In 1971, the library's collections were transferred to Perkins Library in the Communications Center. The Art Department studios and offices are now located in this building.
