Sociology (SOC)

Associate Professor DeBoer

Associate Professor Gunkel

Sociology involves the systematic study of groups and institutions. Social scientists examine the social world using a variety of approaches. Students in sociology learn about urban and rural life, family patterns and relationships, social class, social movements, crime and the criminal justice system, and contemporary social issues. The major prepares students for careers in social research, criminology, demography, gerontology, and human services. The criminology emphasis within the sociology major meets the needs of students with interests and career plans in criminal justice while providing general background in all areas of sociology in order to maximize employment opportunities. A bachelor's degree in sociology also provides students with an excellent liberal arts foundation for numerous career paths. Students graduating with degrees in sociology develop their ability to critically consider issues having to do with human social behavior, develop an understanding of the logic and techniques of examining human social behavior, develop practical skills and knowledge about work, and develop an understanding of sociological concepts, theories, ideas, and explanations.

Requirements for the Sociology Major:

Complete 1 or 2.

1. General sociology major:
 - a. Thirty credits in sociology, including SOC 109, 285, 415, 496.
 - b. The cognate SSI 217.
 - c. A maximum of eight internship credits in SOC 421 may be counted toward the major with the approval of the faculty in the discipline.
2. Sociology major with an emphasis in criminology:
 - a. SOC 109, 210, 285, 310, 312, 314, 496.
 - b. Twelve credits from the following: SOC/PSY 225, 336, SOC 288, 324, 370, 421, PSY 234, 305 (a maximum of six internship credits in SOC 421 may be counted toward the emphasis.)
 - c. Complete the following cognates: BUS 242, PSY 117.

Requirements for the Sociology Minor:

Complete 18-20 credits in sociology, including SOC 109 and 285.

SOC 109 Introduction to Sociology (3)

An introduction to the systematic study of society in terms of social organization, processes, institutions, and relationships among individuals and groups.

SOC 210 Introduction to Criminal Justice (3)

A study of the criminal justice system including theories of crime and criminal

justice, the causes of crime, purpose of law enforcement, and the role of the police, courts, penal institutions, probation and parole. *Prerequisite: SOC 109.*

SOC 225 Introduction to Human Services (3)

This course is designed to enable the student to utilize a framework to understand the dynamic interaction of society, institutions, social welfare programs and the social work profession in the process of human need fulfillment. Mr. Scheele, Writing Specialist
Ms. Marvin, Mathematics Specialist

The Academic Support Center consists of two separate programs: The Doane Learning Center (DLC) and Doane Student Support Services (DSS). Excluding DLC/DSS 090, up to nine DLC/DSS credits may be counted toward graduation.

Any student may enroll in the DLC program offerings. The DSS program is funded by the federal government, so participants must meet federal eligibility guidelines. Eligibility is verified by the Director of Student Support Services each fall. **Only eligible students may enroll in DSS classes.** Eligible students receive program bulletins throughout the year.

In addition to credit courses, the Academic Support Center provides peer tutoring, academic counseling, writing assistance, and a variety of workshops. Students eligible for Student Support Services may also check out computer software and attend cultural events in Lincoln (tickets and transportation provided at no cost).

NOTE: All students must demonstrate adequate basic skills before enrolling in English 101. This requirement is met in one of the following ways:

1. By attaining an ACT English subscore of 19 or above
2. By completing DLC 116/DSS 117 with a C- or higher
3. By completing ENG 100 with a C- or higher (for international students)
4. By transferring credits that are equivalent to DLC 116, DSS 117, or ENG 101

NOTE: All students must demonstrate adequate basic computational skills before enrolling in any mathematics course numbered 100 or above. This requirement may be met in any of five ways:

1. By attaining an Enhanced ACT math score of 19 or higher
2. By attaining an SAT math score of 500 or higher
3. By passing Doane's Computational Skills Test
4. By completing DLC/DSS 090 with a grade of C- or higher
5. By transferring credits that are equivalent to DLC/DSS 090, or college-level mathematics

DOANE LEARNING CENTER (DLC)

The Doane Learning Center provides instruction in college reading efficiency and writing. A student may register for any DLC course at the beginning of a term or any time prior to the first day of each session. Students receive letter grades in these courses.

DLC 090 Computational Skills (3)

An accelerated algebra program designed to bring students who are weak in mathematical skills to a competency level allowing for college success. Upon successful completion of the course, students will demonstrate adequate basic computational skills. *Prerequisite: Permission. (Does not apply to minimum degree requirements.)*

DLC 103 Reading Effectiveness (1)

A developmental mini-course designed to improve reading efficiency at the college level. Emphasis is on analyzing arguments, writing essays related to readings, and applying active reading and study techniques to texts used in college courses. Appropriate for any student interested in improving reading and study techniques for reading-based college courses.

DLC 107 Speed Reading Techniques (1)

A mini-course introduction to rapid reading theory and techniques. In-class drills focus on correct methods of rapid reading. Includes application of appropriate reading strategies to texts used in college courses. Special attention given to the importance of varying speed and technique depending on the reading and the reader's background knowledge. Appropriate for any student interested in application of paced reading techniques to college texts.

DLC 116 Writing Skills (3)

An intensive writing course designed to improve basic skills in college-level composition. *Offered fall term.*

DOANE STUDENT SUPPORT SERVICES (DSS)

The DSS program provides instruction in college-level study skills, writing, and basic computational mathematics. **Students must be eligible for the Student Support Services program to enroll in these courses. Eligible students may register for any DSS course at the beginning of a term or any time prior to the first day of each session. Students receive letter grades in these courses.**

DSS 090 Pre-Algebra (3)

An introductory algebra course that takes students' basic skills to the level of beginning college algebra. Does not count toward minimum degree requirements. Requirement: DSS program eligibility.

NOTE: All students must demonstrate adequate basic computational skills before enrolling in any mathematics course numbered 100 or above. This requirement is met in one of the following ways:

1. By attaining an Enhanced ACT math score of 19 or higher
2. By attaining an SAT math score of 500 or higher
3. By passing Doane's Computational Skills Test
4. By completing DSS 090 with a grade of C- or higher
5. By transferring credits that are equivalent to DLC/DSS 090 or college-level mathematics

117 Thinking Skills for Writing (3)

A course dealing with the thinking skills which underlie college-level writing and designed to improve basic writing skills through intensive practice.

Requirement: DSS program eligibility. *Offered fall term.*

118 College Reading and Study Techniques (3)

An introduction to the active learning techniques and critical thinking skills fundamental to college success. Topics include: establishing academic goals, managing time, preparing for exams, using active reading and study strategies, analyzing arguments, writing essays, and coping with stress. Study techniques are applied to courses in which students are enrolled.

Requirement: DSS program eligibility.

201 Writing the Research Paper (3)

This course is designed to emphasize the mechanical "how-to" problems of putting a formal research paper together, with a secondary emphasis on the evaluation and handling of a variety of sources. Several shorter papers are required, culminating in a 10-15 page term paper. **Requirement:** DSS program eligibility. *Prerequisite: ENG 101. Offered spring term.*
