Course Description:

COU 599 develops foundational skills for professional mental health counseling. Learners will begin a journey of preparation concentrating on knowledge, skills, and processes requisite for today’s mental health counselor. The course will follow a pedagogy designed for adult learners in which participants are guided to relevant concepts and practical application. Within this pedagogy, students will extend their life experiences and personal mission statement into and throughout their coursework as theoretical orientation assumptions are explored. Students will continuously reflect on personal growth and professional development as they formulate a culminating identity statement and position paper. Students will critically defend this paper to peers as well as Doane faculty prior to gaining course credit. Participants will work collaboratively throughout the course expanding multicultural awareness, gender sensitivity, and ethnic understanding. Finally, students will be challenged to develop an electronic portfolio demonstrating gained proficiencies required within the umbrella of the Doane MAC program.
