Course Title: ART 214 Beginning Painting
Winter Term 2014: October 20-December 20
Dates: Wednesdays 6:30-10:30
Instructor: Allie Feezell
Email: afeezell@gmail.com

Course Description
This is an introductory course to working with acrylic paint. Color theory will be used in a practical way in order to understand available pigments. The study of historic and contemporary practice will make up a component of the class. There will be an emphasis on color theory, composition, and idea development.

Course Objective
Students will learn the basic practice of painting from life. Students will become familiar with different types of brushes, mediums, surfaces and supports. We will cover different compositional strategies used throughout art history.

- Students will demonstrate knowledge of the basic elements of composition.
- Students will use line, shape, form, texture, and value as a distinctive means of visual notation.
- Students will experiment with several different techniques of painting.
- Students will explore a variety of technical skills, materials, and methods.
- Students will examine the communicative potential of painting.
- Students will speak and write critically about personal and peer artwork.

Assessment Criteria
800 points-Projects (Attendance, participation, and involvement in critiques are included in the final grade of each project)

Point Breakdown
100 pts Black/White Imaginary Still Life with Value Scale
100 pts Colored Imaginary Still Life
200 pts Color Theory Portrait (or Landscape)
100 pts Bob Ross paint along
300 pts Bring in your own object still life/Painting a Series
Total: 800 points
Attendance

Points for Attendance are worked into the final grades of each project. Each student is allowed one absence per term. Each following absence will result in the lowering of the final grade by one letter at my discretion. It will be to your advantage to miss as little as possible. If the student is late and misses attendance it will be counted as one half absence. If you come to class unprepared for the day (i.e. - missing supplies) you will receive half of an absence for the day; I will find you something to do.

Class lectures, demonstrations, and critiques cannot be made up, and getting information second hand is rarely satisfactory. It will be your responsibility to attain any missed information due to absentia. If you miss a class you can expect your work, and thus, your grade to suffer. You must notify me of an absence as soon as possible before class starts. Always look ahead and come to class with your supplies ready.

-Arty student who chooses to engage in behavior that is not respectful of fellow students, faculty or staff may be removed from this course.

Use of cellular phones

Cell phones must be turned off during class time. If you are having an actual emergency (i.e. a close relative in the hospital or similar) that requires you to have phone access during class:

• Let your teacher know before class begins.
• Put your phone on vibrate and discreetly leave class to handle the phone call.
• No text messaging allowed during class

Accommodations for students with disabilities

Midland University supports each student’s efforts to become a self-sufficient learner and encourages any student needing accommodations to seek support through the office of Academic Support Services as early as possible. Midland University supports reasonable accommodations to allow participation by individuals with disabilities. Any request for accommodation must be initiated by the student. Each student receiving accommodations is responsible for his/her educational and personal needs while enrolled at Midland University.

Academic Honesty

Students are expected to conduct themselves in conformance with the highest of standards in regard to academic honesty. Breaches of this expectation include infractions such as cheating, plagiarism, collusion, and fabrication/falsification of records. Students violating such standards will be disciplined in accordance with the University Academic Integrity Policy.

All incidents of confirmed plagiarism will be communicated to the Dean’s office for appropriate action.
Schedule

**Oct 22:** Learn how to make black (ultramarine + burnt umber); learn to make objects look three dimensional with transitioning value; Black/White Value scale with imaginary geometric still life

**Oct 29:** Learn how to mix colors, Color Geometric Still life
