Course Description:
This is a course that will teach advanced web page design techniques using Photoshop, and Dreamweaver. This class builds on the skills learned in Beginning Web Design to create websites that are both great looking and user friendly.

Prerequisite:
GRD 271 (Beginning Web Design), Also a general knowledge of Photoshop is helpful.

Course Objectives:
Upon completion of this class, students will have an understanding and the skills to be able to:

- Create and update professional looking web pages.
- Manage entire web sites.
- Design graphics for web use.
- Develop animation for web use.
- Have a greater understanding of how to integrate the above listed software.

CLASS ATTENDANCE and BEHAVIOR:
If you must bring a cell phone to class make sure it is turned off before the start of class. Any online messaging, browsing, gaming, etc not related to class will be grounds for dismissal from class. This class is primarily interactive and “hands-on,” making up a missed class is almost impossible. If an emergency should arise, please contact me BEFORE the class you are going to miss. Failure to do so will result in an unexcused absence. Work missed during an unexcused absence will not be able to be made up and your grade will automatically drop 1 letter grade for each unexcused absence.

Required Text:
None.

The Doane College Academic Integrity Policy will be adhered to in this class. All projects will represent your own work. Any use of others’ ideas and words without proper citation of sources is plagiarism and will result in penalties to be determined by the instructor and/or the Dean of Undergraduate Studies.
