GRD 471 Advanced Digital Projects
Instructor: Chris Hadfield chris.hadfield@doane.edu

COURSE DESCRIPTION:
This course is a follow-up to GRD 320 Digital Drawing. In this class students will expand on the knowledge covered in GRD 320 through a series of instructor guided projects. This class will consist of four in-class sessions and four directed out of class work-weeks.

Prerequisite: GRD 320

REQUIRED TEXT: NONE

COURSE OBJECTIVES:
Upon satisfactory completion of this course, students will:
1. Create new surfaces and objects from scratch
2. Use those new surfaces and objects to make stunning composites
3. Understand when to create from scratch and when to use available real textures
4. How to change lighting and create realistic reflections and cast shadows
   Finally students will greatly expand and build on their ability (from GRD 320) to create, edit, and composite both “from scratch” objects as well as “real world” objects and textures.
