The Doane Safety Office submitted the 2012 Annual Security Report in August. A copy of the report can be found at this link: [http://www.doane.edu/Students/Campus/Safety/documents/42907.pdf](http://www.doane.edu/Students/Campus/Safety/documents/42907.pdf). The crime report is required by federal law and is based on calendar year (not academic year). A copy of the reporting requirement can be found at this link [http://www2.ed.gov/admins/lead/safety/handbook.pdf](http://www2.ed.gov/admins/lead/safety/handbook.pdf). Each Doane campus is separately reportable (i.e. Crete, Lincoln & Grand Island). This reporting period was for 2011. Only the Crete campus (as in past years) has significant reportable crimes. This is primary due to crimes reported in or around the residence halls (Lincoln and GI do not have residential facilities). The areas that include reportable incidents are noted below along with background information. The incident type following by the reported total (#) is listed for easy reference:

1. **Burglary (17)**
   a. Of the 17 reportable burglaries, eight of them occurred during two specific dates where the persons responsible entered multiple rooms. In both cases (April 2011 & June 2011) the person/s responsible were identified and arrested. 14 of the burglaries occurred in residence halls. The primary mode of access was through unlocked doors.
   i. *Safety Tip: Keep doors locked at all times, even when leaving for a short period.*
      Also, keep valuables hidden away even from people that you know. In most cases, the thefts involved someone who knew where the items were located.
      *Example: In one case a student had cash stolen from a remote location in their room. The money was stolen in a very short period of time while the student was still in the building. They suspected one of multiple person/s that had been in their room recently.*

2. **Arrests: Drug Abuse Violations (14)**
   a. The total was based on statistics supplied by the Crete police department. Several incidents were the result of Safety Office staff contacting law enforcement due to locating drugs and paraphernalia on campus. 10 of the incidents involved Doane students. Four of the arrests occurred during a local High School football game and involved local non-Doane students.
   i. *The Doane Safety Office does not store or dispose of drug related materials or items. When these items are located, they are turned over immediately to local law enforcement.*
   ii. *Important Information: Convictions involving drugs can result in loss of federal aid. There is a significant risk for students who involve themselves with drugs. Students who need assistance with substance issues can utilize the campus counselor by contacting myron.parsely@doane.edu or calling x8265 for an appointment.*
3. Disciplinary Referrals: Drug Abuse Violations (17)
   a. Referrals to the campus judicial affairs process occurred for several cases following the report to law enforcement. The primary sanction for cases involving drugs is a mandatory drug evaluation by a licensed counselor. This is supplemented with follow up meetings with the Doane campus counselor.

4. Arrests: Liquor Law Violations (18)
   a. There was a significant increase in the number of 2011 arrests for liquor law violations. Seven of the incident occurred during July 2011 (summer) in Colonial Hall stemming from a noise complaint by neighbors. The specific location housed Doane students who were working for the college over the summer. *(Note: The Doane Safety Office is not open full-time in the summer to monitor or respond in the same manner we would during the academic year)*. Four incidents were the result of traffic stops by local law enforcement that occurred as the driver pulled over in residence hall parking lots. The incidents involved driving under the influence and minors in possession of alcohol.

5. Disciplinary Referrals: Liquor Law Violations (72)
   a. The majority of liquor law violations at Doane – Crete are heard by the Peer Judicial Board (PJB) which is made up of Doane students. 63 of the incidents occurred during Spring 2011 and 20 (31%) of the total incidents occurred on Stop Day of that year. The Peer Judicial Board utilizes educational resources such as Alcohol.edu *(http://www.outsidetheclassroom.com/solutions/higher-education/alcoholesdu-for-college.aspx)* which gives students a personal evaluation of their drinking behaviors and decisions as part of their sanctions. 37 of the total violations occurred in the Quads (Burrage and Colonial Hall).

6. Hate Crime: Intimidation
   a. Incident involved an ex-Doane student who reported a sexual orientation motivated direct-threat written on a dry-eraser board in a residence hall.
      i. Doane College does not condone acts of intimidation or hate. If you or anyone you know has an issue you can find resources and information at the following link: *http://www.doane.edu/Students/Campus/Safety/oir/45916/*.

The Doane Safety Office maintains a campus crime log which is available upon request during business hours M-F 8am – 4pm. We also post a weekly incident report list at the Safety Office on our video screen. We invite anyone looking for additional information to “like” us on facebook or our twitter accounts.
