CCC and Doane 2+2 Program

If we lived in a perfect world, and tuition and fees did NOT increase at all colleges and universities in Nebraska for the next four years, what would be the cost to complete a bachelor’s degree?

<table>
<thead>
<tr>
<th>Public Colleges</th>
<th>Private Colleges</th>
</tr>
</thead>
<tbody>
<tr>
<td>$22,431 - $32,290</td>
<td>$32,765 - $141,440</td>
</tr>
</tbody>
</table>

NOTE: These figures represent tuition and fees ONLY and are calculated for 30 credits/year for 4 years. Room and board, books and/or commuting costs are NOT included.

**Two Colleges – Two Degrees – One Great Education**

**At a Great Price!**

*60 credits completed through Central Community College = $ 5,520  
*63 credits completed through Doane College Grand Island = $ 17,299  
Total tuition and fees cost for the bachelor’s degree = $ 22,819

If a student is eligible for a full Pell Grant all four years, using the maximum award amount for 2014-2015, over four years the student would receive $ 22,920.
