

STUDENT HEALTH SERVICES

WELCOME TO DOANE COLLEGE

Doane College Student Health Services is committed to providing the best possible health services for our students. In an effort to do just that, it is necessary for us to have on file, a complete health history for each student. Please fill out the enclosed CONFIDENTIAL MEDICAL HISTORY REPORT completely.

All sections **MUST** be filled in. Return the completed **Medical History Report** in the envelope provided no later than **July 1 or bring it with you to new student enrollment.**

- * **The Student Health Record** is considered confidential and is available only to the Student Health Staff. Information will not be released to any other campus office without written or verbal consent by the student.
- * **Physical Examination**- A physical by the student's physician is Highly recommended and is required if the student plans to participate in the intercollegiate athletic program. (Please take the blue "Confidential Medical History Report" form with you to your Dr. appointment). Students who are under medical treatment or who have a permanent disability with required periodic review by a physician are requested to provide a confidential statement from the physician to the Director of Health Services so that we may be able to meet the health care needs of the student.
- * **Immunizations**- All students enrolled at Doane College are REQUIRED to be adequately immunized. Each student will need to provide DATES of the following immunizations to be considered adequately immunized (Phrases such as "as a child," "current," and "up to date" are NOT acceptable). This requirement is to ensure the safety of all students from potentially dangerous communicable diseases.
 - MMR (Measles, Mumps and Rubella) 2 vaccinations are required.
 - OPV (Oral Polio Vaccine) A minimum of 3 vaccinations are required.
 - DPT (Diphtheria, Pertussis, Tetanus) A minimum of 3 vaccinations are required.
 - Td or Tdap (Tetanus, Diphtheria) Within the past 10 years.
 - HBV (Hepatitis B Vaccine) Series of 3 shots over a 4-6 month period of time.
 - Menactra (Meningococcal Vaccine)
 - Varicella (chicken pox vaccination) only if student has not had chicken pox

****The above vaccinations are REQUIRED****

(OVER)

- * **Dental Examination**- Students are urged to see their dentist prior to the start of the semester to avoid any unnecessary dental health problems during the academic year.
- * **Insurance**- Students are requested to have adequate health and accident insurance coverage as a safeguard in the event of a major illness or accident. Doane's insurance policy on the general student body provides SECONDARY coverage for accidents only. This will not replace your primary coverage/insurance deductible, and only comes into effect after your own insurance. Restrictions do apply.

Student Health Insurance is available to Doane Students who wish to purchase a short term health insurance policy (This policy does not cover intercollegiate athletics). For more information, contact the business office.
