UNIVERSITY

## ENVIRONMENTAL SCIENCE MAJOR *Agribusiness Emphasis Area*

### **A Unique Curriculum—On Ground and Online**

The Doane agribusiness emphasis is one of several emphasis areas available to Environmental Science majors. The emphasis includes a distinctive blended curriculum made up of both online and on ground classes. The curriculum is designed to help prepare graduates for employment in a variety of fields including agricultural marketing and farm and ranch management.

### **Job Opportunities**

According to the 2015-2020 USDA report Employment Opportunities for College Graduates U.S. college graduates who have expertise in agriculture, natural resources, the environment and food production will see 57,900 average annual openings. However these graduates are expected to fill only 61% of these openings.
