

IMPORTANT NOTICE: CHANGES DUE TO COVID-19

This term you will notice two options for course modalities: Online and Distance Learning. Courses designated as "Online" will be delivered asynchronously through our learning management system and will meet the same expectations as previously offered online classes. Courses designated as "Distance Learning" will encompass content and assignments through Doane's learning management system with added accommodations to deliver synchronous content. For these courses, please be advised that a designated evening may be required to virtually connect with your class and faculty.
