

Maximum DifferenceSM
Cancer Indemnity Insurance

Policy Series A76000

American Family Life Assurance Company of Columbus (Aflac)

As long as cancer is in this world, Aflac will innovate to fight it.

The fight against cancer has evolved. Aflac's coverage has as well.

In 1958, Aflac introduced its first cancer policy. The goal was to help protect individuals and their families from the damage that cancer can do both physically and financially. By paying cash benefits to its policyholders, unless they designated otherwise, Aflac's coverage provided a level of freedom that many major medical insurance companies simply could not.

Today, millions of individuals and families are still battling cancer, but the fight has changed in many ways. Advances in pharmaceuticals, surgical procedures, and alternative treatments have improved the odds for those diagnosed with the disease. But with improved treatments, increased costs have arrived as well. Aflac's new Maximum DifferenceSM policy addresses these concerns with new benefits that reflect the new directions in which America's battle against this tenacious foe is headed.

The Maximum DifferenceSM policy continues Aflac's goal of providing groundbreaking coverage at affordable rates. One day, cancer will cease to be a threat. Until then, there's Aflac.

Quick-Reference Chart of Benefits Information

Benefits are paid only for Covered Persons who receive Physician-prescribed treatment approved by the National Cancer Institute (NCI) or the Food and Drug Administration for Cancer (unless stated otherwise) or an Associated Cancerous Condition, as applicable. To be payable, the benefits listed below require a charge to be incurred for the applicable treatment or service, except for the Experimental Treatment Benefit (as detailed below), the Hospital Confinement Benefit (when confined in a U.S. government hospital), and the Hospice Care Benefit.

Understanding the Risk

Despite the best efforts of doctors, researchers, and countless organizations, cancer remains a concern for many individuals and families. People from all walks of life are at risk regardless of age, sex, or ethnic background. Here are a few statistics to help you understand the role cancer plays in America's overall health. According to the American Cancer Society:*

- In the United States, men have slightly less than a 1-in-2 lifetime risk of developing cancer; for women the risk is a little more than 1-in-3.
- About 1,444,920 new cancer cases are expected to be diagnosed in 2007.
- An estimated 10,400 new cases are expected to occur among children ages 0–14 in 2007.

Advances in treatment also mean that Americans diagnosed with cancer are living longer than ever. The five-year relative survival rate for all cancers combined between 1996 and 2002 is 66%, up from 50% in 1975–77.*

Although major medical insurance can help with the costs of cancer treatment, you still may have to cover deductibles and copayments on your own. Additionally, cancer treatment can necessitate out-of-pocket expenses that aren't covered by major medical insurance, including travel, food, lodging, long-distance calls, child care, and household help.

Meanwhile, living expenses such as car payments, mortgages or rent, and utility bills continue, whether or not you are able to work. If a family member has to stop working to take care of you, the loss of income may be doubled.

By paying cash benefits directly to you, unless you choose otherwise, Aflac's Maximum DifferenceSM policy allows you the freedom to use those funds as you see fit, helping you with the financial consequences of cancer that may not be covered by major medical insurance.

Waiver of Premium

If you, due to having Cancer or an Associated Cancerous Condition, are completely unable to perform all of the usual and customary duties of your occupation [or if not employed: are unable to perform 2 or more activities of daily living (ADLs) without the assistance of another person] for a period of 90 continuous days, Aflac will waive, from month to month, any premiums falling due during your continued inability. For premiums to be waived, Aflac will require an employer's statement (if applicable) and a Physician's statement of your inability to perform said duties or activities and may each month thereafter require a Physician's statement that total inability continues. Aflac may ask for and use an independent consultant to determine whether you can perform an ADL while this benefit is in force. Aflac will also waive, from month to month, any premiums falling due while you are receiving Hospice Benefits.

Continuation of Coverage

Aflac will waive all monthly premiums due for the policy and riders for 2 months if you meet all of the following conditions: your policy has been in force for at least 6 months; we have received premiums for at least 6 consecutive months; your premiums have been paid through payroll deduction; you or your employer has notified us in writing within 30 days of the date your premium payments ceased due to your leaving employment; and you re-establish premium payments with Aflac. You will again become eligible to receive this benefit after you re-establish your premium payments through payroll deduction for a period of at least 6 months, and we receive premiums for at least 6 consecutive months.

Limitations and Exclusions: We pay only for treatment of Cancer and Associated Cancerous Conditions diagnosed on or after the Effective Date of coverage, including direct extension, metastatic spread, or recurrence. Benefits are not provided for premalignant conditions or conditions with malignant potential (unless specifically covered); complications of either Cancer or an Associated Cancerous Condition; or any other disease, sickness, or incapacity. The policy contains a 30-day waiting period. If a Covered Person has Cancer or an Associated Cancerous Condition diagnosed before his or her coverage has been in force 30 days, benefits for treatment of that Cancer or Associated Cancerous Condition will apply only to treatment occurring after 2 years from the Effective Date of such person's coverage or, at your option, you may elect to void the coverage and receive a full refund of premium.

Guaranteed-Renewable: The policy is guaranteed-renewable for your lifetime, subject to Aflac's right to change premiums by class upon any renewal date.

Effective Date: The *Effective Date* is the date coverage begins, as shown in the Policy Schedule. It is not the date you signed the application for coverage.

Covered Person: A *Covered Person* is any person covered under individual (named insured listed in the Policy Schedule), named insured/Spouse only (named insured and Spouse), one-parent family (named insured and Dependent Children), or two-parent family (named insured, Spouse, and Dependent Children) coverage as applied for by you on the application. *Spouse* is defined as the person to whom you are legally married and who is listed on your application. Newborn children are automatically insured from the moment of birth. If coverage is for individual or named insured/Spouse only, and you desire uninterrupted coverage, you must notify Aflac in writing within 31 days of the birth of your child, and Aflac will convert the policy to one-parent family or two-parent family coverage and advise you of the additional premium due. Coverage will include any other unmarried Dependent Child, regardless of age, who is incapable of self-sustaining employment by reason of mental retardation or physical handicap and who became so incapacitated prior to age 25 and while covered under the policy. *Dependent Children* are your natural children, stepchildren, or legally adopted children who are unmarried, under age 25, and legal dependents for federal tax exemption purposes. **A Dependent Child (including persons incapable of self-sustaining employment by reason of mental retardation or physical handicap) must be under age 25 at the time of application to be eligible for coverage.**

Cancer: *Cancer* is a disease manifested by the presence of a malignant tumor and characterized by the uncontrolled growth and spread of malignant cells and the invasion of tissue. *Cancer* also includes, but is not limited to, leukemia, Hodgkin's disease, and melanoma. Cancer must receive a positive medical diagnosis.

1. *Internal Cancer* includes all Cancers other than Nonmelanoma Skin Cancer (see definition of Nonmelanoma Skin Cancer).
 2. *Nonmelanoma Skin Cancer* is a Cancer other than a melanoma that begins in the upper part of the skin (epidermis).
- Associated Cancerous Conditions, premalignant conditions, or conditions with malignant potential will not be considered Cancer.

Associated Cancerous Condition: An *Associated Cancerous Condition* is a myelodysplastic blood disorder, myeloproliferative blood disorder, or carcinoma in situ (in the natural or normal place, confined to the site of origin without having invaded neighboring tissue). An Associated Cancerous Condition must receive a positive medical diagnosis. **Premalignant conditions or conditions with malignant potential, other than those specifically named above, are not considered Associated Cancerous Conditions.**

Hospital: *Hospital* does not include any institution or part thereof used as an emergency room; an observation unit; a rehabilitation unit; a hospice unit, including any bed designated as a hospice or a swing bed; a convalescent home; a rest or nursing facility; a psychiatric unit; an Extended-Care Facility; a skilled nursing facility; or a facility primarily affording custodial or educational care, care or treatment for persons suffering from mental disease or disorders, care for the aged, or care for persons addicted to drugs or alcohol.

Ambulatory Surgical Center: An *Ambulatory Surgical Center* does not include a doctor's or dentist's office, clinic, or other such location.

Physician: A *Physician* is a person legally qualified to practice medicine, other than a member of your immediate family, who is licensed as a Physician by the state where treatment is received to treat the type of condition for which a claim is made.
