IMPORTANT:

1. Students are required to transfer in 9 credits for 3-year guarantee eligibility. These credits have the potential to alter program plan slightly but careful planning is required to maintain History course schedule. If a student transfers more than 9 credits to start, it can either affect the student's semester or summer loads in the 3-year program plan.
2. Students are required to earn 123 credits for graduation. The above plan shows 9 credits transferred in prior to enrollment, 12 credits during summers after years 1 and 2, plus the total of 102 credits earned during fall and spring semesters.
3. The Undergraduate Core requires 3 LAR courses, 7 FAK courses, and 1 experiential learning course. These have been met in the above plan.
4. Students should consider incorporating a minor (usually at least 18 credits) into his/her individual program. The history major allows for relative flexibility with General Electives to be replaced with minor program coursework.
