

# Spotlight on Environmental and Earth Sciences Graduates

## - Lindsay Wilson '15 -

### **Researcher**

Department of Agronomy and Plant Genetics  
University of Minnesota

### **Doane Highlights:**

- Environmental Science and Biology majors
- Environmental and Earth Sciences Achievement Award
- Mary Ruth Stevens Prize for Excellence in Biology
- Co-chair, Green Committee
- President, Roots and Shoots
- Symphonic Wind Ensemble

### **Current Highlights:**

- Conducting field, lab, and greenhouse research on perennial grains
- Managing data for Minnesota Department of Agriculture-funded projects
- Assisting with research on native plants and how their environment may affect the natural products they produce (environmental metabolomics)
- Currently looking to apply to graduate programs in Fall of 2017.

### **Lindsay Remembers:**

“The most valuable part of my Doane education was the honest mentorship from faculty and staff. I’m amazed by the amount of time and energy they invest in students to help us become well-rounded people while also displaying a passion for their own work. I babysat their kids, had coffee at their houses, and explored state and national parks with them.. I just can’t imagine that sort of connection anywhere else!”

Minnesota Dept. of Agriculture Natural Products Research Plot, Becker, MN
